OBJECTIVE

Passionate and detail-oriented Full-Stack Developer skilled in building scalable, responsive, and user-friendly web applications. Proficient in frontend frameworks like React.js and Bootstrap, as well as backend technologies including Node.js, Express.js, and MongoDB. Strong problem-solving ability with experience in API integration, database management, and full-cycle software development. Eager to contribute to dynamic teams focused on developing high-quality, efficient, and innovative software solutions.

EDUCATION

JNTUH College of Engineering Manthani   Sep. 2021 - June 2024
B.Tech in Mechanical Engineering   *GPA: 6.87/10*
Govt Polytechnic College, Warangal (Diploma in Mechanical Engineering)   June. 2018 – May 2021
                                                                       GPA: 9.11/10.0
Awards: Awarded full merit-based scholarship covering tuition for my B.Tech & Diploma in Mechanical Engineering

SKILLS

Front-end Development: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, EJS
Back-end Development: Node.js, Express.js, Python, REST APIs
Database: MongoDB, Mongoose, MySQL, PL/SQL
Other Tools: Git/GitHub, Postman

PROJECTS

Tasty Kitchens Restaurant App *React.js, Node.js, MongoDB, HTML, CSS, JavaScript*
- Developed an interactive restaurant application where users can log in, browse recipes, add items to the cart, and place orders.
- Implemented a responsive UI using React.js to ensure a seamless experience across devices.
- Managed user authentication and order processing using Node.js and MongoDB.

Movies App *React.js, Node.js, MongoDB, HTML, CSS, JavaScript*
- Built a movie browsing platform where users can log in, view account details, explore trending movies, and see detailed movie descriptions.
- Integrated real-time data fetching using REST APIs for movie listings and trending updates.
- Designed and implemented secure user authentication and data management using MongoDB.

Secrets App (Secure Web Application) *Node.js, Express.js, MongoDB, bcrypt, OAuth 2.0*
- Implemented secure authentication using bcrypt and OAuth 2.0.
- Designed RESTful routes and deployed the app on Heroku for production use.
- Stored and encrypted sensitive user data using mongoose-encryption.

EXPERIENCE

SmartBridge, Virtual | *Intership*   July 2023 - Aug 2023
- We have worked on Python for data visualisation, data prepossessing techniques, machine learning, classification algorithms, model building, and application building like creating an HTML file and Python code.
- Developed automated data processing pipelines using Python, ensuring efficient data flow and integration for business applications.
